

PRESS RELEASE

Invitation to SHC 2013: 23-25 September 2013, Freiburg, Germany

What: SHC 2013, the International Conference on
Solar Heating and Cooling for Buildings and Industry

When: 23-25 September 2013

Where: Freiburg, Germany

Why you should attend:

SHC 2013 is this year's primary meeting point for experts from solar thermal and solar buildings. If you want to learn more about the state-of-the-art in solar heating/cooling or if you want to meet the leading experts in this field, register for SHC 2013: www.shc2013.org

Program:

- Overview: <http://www.shc2013.org/cms/conference-program.html>
- Detailed: <http://cms.shc2013.org/program> (click on the sessions to expand the details)

Interviews – meeting the experts:

- If you would like to meet with specific speakers, contact us and we will help you arrange a meeting in advance.

Questions:

- Practical information (e.g. registration, how to get to SHC 2013): info@shc2013.org.
- Content and interviews: communications@iea-shc.org

Further information:

- Conference website: www.shc2013.org

PRESS RELEASE

About the International Energy Agency's Solar Heating and Cooling Programme (IEA SHC):

- The Programme was established in 1977.
- Its objectives are co-operative research, development, demonstration and exchange of information regarding solar heating and cooling systems.
- 20 countries and the European Union are IEA SHC members.
- The research topics of the current 12 projects range from more general topics, such as "Solar resource assessment and forecasting" , system research, such as "Large solar thermal systems", market support such as "Solar Rating and Certification" to material research, such as the use of "Polymeric materials for solar thermal applications."
- Additional information: www.iea-shc.org

Contact information:

- IEA SHC information center:
